EXPERIENCE

DHL Express | 2020 – Present

IMPLEMENTATION SPECIALIST & SYSTEM ANALYST | 2025 – PRESENT

Leading technical implementation and support for core operational systems, serving as the bridge between R&D, operations, and enterprise clients.

- Global Integration: Lead the local integration of global service platforms and manage the technical transition to next-generation global systems.
- Collaboration: Maintain collaboration with global technical teams to define requirements, troubleshoot integration issues, and deploy system updates.
- Work with the business owners to translate needs to solutions.
- Enterprise Technical Support and training for internal stakeholders and external enterprise clients, ensuring business continuity.
- System Optimization: Execute root cause analysis to validate system logic and prevent critical errors. Utilize Oracle SQL for data verification and integrity checks across interfaces.
- Evaluated an AI-driven customer service pilot (voice agent) within a regulated enterprise environment.
- Daily use of AI tools (Gemini, Copilot) to improve productivity, problem-solving, and technical solution design.

DIGITAL TRANSFORMATION SPECIALIST & PROJECT MANAGER | 2022 - 2025

Specialized in Information Systems within the Customer Service group.

- Expert Support: Focal point for complex technical issues on enterprise platforms; led troubleshooting and resolution.
- Training & Enablement: Developed and delivered technical training programs, guiding managers and end-users on system updates and best practices.
- Global Alignment: Managed daily communication with international teams to resolve bugs and adapted global technical specifications for Israeli market requirements.
- AI & Automation: Drove the adoption of AI-based tools and optimized customer-facing chatbots, increasing team productivity.

SHIFT MANAGER, CUSTOMER SERVICE CENTER | 2021-2022

- Managed a multi-site team, consistently exceeding global and local service KPIs in a high-pressure environment.
- Developed training programs focused on software updates and system localization.

CUSTOMER SERVICE REPRESENTATIVE | 2020

- Provided high-level service and technical guidance to international clients.
